

Assignment #9d

PROG9d.BAS

Assignment #9d your MAIN program should make a call to a FUNCTION that will divide one user supplied number by a second user supplied number.

Input:

Your MAIN program should ask the user to enter two numbers.

Processing Requirements:

- 1) Your MAIN program should call the FUNCTION (Division) and pass the first user provided number by reference and the second user provided number by value to the FUNCTION (Division).

Output:

Your FUNCTION should divide the first number by the second then return the result to your MAIN program that will need to print out the results similar to the following.

10 / 5 = 2
